### YEDEK PARÇA METAL MAKİNA SAN. VE TİC. A.Ş.

#### OCCUPATIONAL HEALTH AND SAFETY POLICY:

To comply with the legal regulations regarding occupational health and safety in all our activities,  
To educate and raise awareness of all employees in order to ensure their health and safety,  
Identifying and procuring personal protective equipment for all operations, training operators and ensuring their use,  
To identify and eliminate the factors that may cause work accidents and occupational diseases, to provide ergonomic working conditions,  
To ensure the use of new technologies and effective resources on occupational health and safety, To minimize occupational safety risks in our activities by providing consultation and participation of our employees,  
To ensure machine and facility security based on risk analysis, making emergency situation plans and inform to employees,  
Evaluating the effects of new investments and processes in terms of Occupational Health and Safety at the project planning stage,  
To provide material safety data information on the use of chemical materials and training employees,  
To take all necessary precautions for fire protection,  
To ensure the participation and informing of employees, employee representatives, suppliers and other relevant parties in OHS processes,  
To achieve the sustainable goal of "Zero Occupational Accident" by constantly improving our occupational health and safety culture and evaluating OHS risks and opportunities.

**Chairman of the Board**
