SAB Automotive Customer Complaint form for service (F.168) will be filled in for warranty replacement parts by the service. The returned part is forwarded to SAB Automotive along with the filled form for analysis.

These parts are analyzed in SAB Automotive and the evaluation results are communicated to the customer. The assessed results will be in accordance with the following items:

- 1-If the liability is accepted by SAB Automotive, the returned part is accepted,
- 2-If the liability is not acceptable by SAB, the returned part is rejected,
- 3-If the liability is not determine, the liability will be shared according to the agreement with the customer.

Conditions Covered and Excluded from Warranty:

SAB Otomotiv will be responsible for repair or replace the faulty part in case of failure due to the production fault within the warranty period without charge of labor cost, replacement cost or any other costs.

Responsibility to replace the faulty part with a new one belongs to the seller, dealer or agent that the product is purchased from. Customer should go to service with the purchase invoice in the warranty period. Service shall fill the customer complaint form to understand the situation of part and then send to SAB Otomotiv.

Periodic maintenance of the vehicle in which the parts are installed must be carried out in time so that the warranty conditions can be maintained.

Warranty do not cover wear and abrasions due to bad road conditions, accidents, natural disasters, all kinds of performance tests, racing, compulsion, etc.

In order to resolve the warranty claims, customer must be clearly disclosed her/his experience and findings to our authorised service agent. The customer brings the vehicle to our authorized service and wait the period required for the diagnosis and repair of the fault. Repair of the vehicle by unauthorized persons is out of warranty.

If the technical information, special tools and equipments for the assembly of the part did not properly use, the warranty will be finished.

Damage arising from improper storage, improper packaging or improper transport of the product is out of warranty.

Warranty will end if the part is used for contrary to purpose, used in improper vehicle or out of standard.

Warranty will end if damage or alteration of the indicator and warning systems of the vehicle. Warranty will end if user do not comply indications and warnings.

Warranty will end if the vehicle on which the part is assembled has been altered or changed out of standard.
